MERN STACK DEVELOPER │ REACT & NODE.JS DEVELOPER

Tirunelveli, Tamil Nadu │ +91 84386 79529 │ s.visva532@gmail.com
│ LinkedIn │ GitHub │ GeeksforGeeks

PROFESSIONAL SUMMARY

Enthusiastic MERN Stack Developer with hands-on experience in building responsive full-stack applications using React, Node.js, and modern databases. Strong problem-solving skills with real-world project and internship exposure.
Experienced in API integration, database management, and creating user-friendly interfaces with a focus on performance and scalability. Eager to contribute technical skills to dynamic development teams while continuously learning and growing as a developer.

EDUCATION

COMPUTER SCIENCE AND ENGINEERING (Pursuing)   **Jun 2023 - Jul 2027**

Ponjesly College of Engineering, Kanniyakumari, India

WORK EXPERIENCE

Full Stack Developer Intern   **June 2025 – July 2025**

OneYes Infotech Solutions Pvt. Ltd., Chennai
- Successfully completed a Full Stack Developer Internship, gaining hands-on experience in both frontend and backend development.
- Designed and developed responsive web applications using HTML, CSS, JavaScript, and modern frameworks.
- Assisted in backend development, API integration, and database handling to support full stack application workflows.
- Collaborated with the development team to understand real world project requirements and implement efficient solutions.

Web Development Internship   **March 2025 – April 2025**

zidio development ,Bengaluru ,India
- Completed a full stack web development role, working across both frontend and backend systems.
- Designed and developed interactive, responsive web pages using HTML, CSS, JavaScript, and React.
- Contributed to backend functionality using Node.js and Express.js, including API integration and server-side logic.

Data Science Intern.   **january-2025**

Srishti Innovative,technopark,India.
- Duration: 7 Days (Intensive)
- Worked hands on with Python, leveraging libraries like Pandas and NumPy for data manipulation and analysis.
- Performed exploratory data analysis and built basic ML models using Jupyter Notebook.

PROJECTS

Restaurant Billing & Table Management System

Developed a full stack restaurant billing software using React, FastAPI, and SQLite. The system supports dine in and takeaway orders, table management, role-based login, and a dedicated kitchen order display for real time order tracking. Designed to run on localhost with a local database, ensuring offline usage and zero cost operation for the client.

Bus Fleet Management System

Developed a web based Bus Fleet Management System to digitally manage bus details, routes, and scheduling operations. Designed a clean and responsive user interface using HTML and CSS, and implemented interactive functionalities with JavaScript to enhance user experience. The project focuses on improving operational efficiency, data organization, and ease of use, demonstrating strong frontend development and real world problem-solving skills.

TECHNICAL SKILLS

- **Languages**: Python, JavaScript
- **Frontend:** HTML5, CSS3, React.js,Bootstrap
- **Backend:** Node.js, Express.js, FastAPI
- **Databases:** MongoDB, SQLite
- **Tools:** Git, GitHub, MS Excel, Canva,Figma

ASSESSMENTS

TCS iON NQT – IT (Nov 2025)

Overall Score: 67.31% │ Python Hands-on: 69.17%
